

**Marlborough Lines Limited**  
**Electricity Lines Charges Effective 1 April 2008**  
**All Prices Exclusive of GST**

**Disclosed Pursuant to Electricity (Information Disclosure) Regulations 1999 and Electricity (Information Disclosure) Amendment Regulations 2006, Part 6**

Marlborough Lines is pleased to announce that it will continue its policy of providing discounts to qualifying consumers in 2008/09. The terms on which the discount is available are set out below.

The total amount of funds which will be returned to qualifying consumers by way of discount will be a minimum of \$6.5million inclusive of GST. The amount of discount which will be paid to each qualifying consumer depends on the line charges paid for an installation in the period from 1 February 2008 to 31 January 2009. The minimum rates at which the discount will be applied for the various line charges are set out in the price schedule below.

Discounts will be calculated by Marlborough Lines, based on the information provided to us by the electricity retailers, and paid to the retailers towards the end of March 2009. Marlborough Lines will arrange for the electricity retailers to pass on the discount directly to each qualifying consumer. A qualifying consumer is any person who is connected by the Marlborough Lines to a date determined by the Company in March 2009, for an installation which has been connected at any time between 1 February 2008 to 31 January 2009.

Code	Price Unit	Pre-Discount Charge from 1 April 2008	Distribution Component From 1 April 2008	Transmission Component From 1 April 2008	Discount From 1 April 2008	Estimated Number of Connections 31 March 2008	Total Charge to 31 March 2008	Distribution Component to 31 March 2008	Transmission Component to 31 March 2008	Notes
